1 Foreword

This is a computer-generated English-to-Ebisédian lexical index. It is intended to help Ebisédian learners quickly find Ebisédian words that correspond with an English word or phrase. It is designed to be used in conjunction with the lexicon itself, as the full definition of the Ebisédian words are not given.

This index is created from the actual Ebisédian-to-English lexicon. Note that not all entries in the lexicon have corresponding entries here; grammatical particles and other words which have no English equivalents are not included.
